Our MasterTrac wood shelving is made of 3/4" furniture-grade particleboard with a high-definition micro paper laminate. The high heat and pressure used in manufacturing result in a very strong, environmentally-friendly product.

Our wood products are made of over 80% recycled products. All wood panels used at our production facility are "Environmentally Preferred Product" (EPP) by the Composite Panel Association.

PRODUCT CARE

While laminate products are durable, like any wood product they are not water resistant. We recommend quickly wiping any spilled liquid to prevent damage.

To clean we recommend light dusting or wiping the surface with a wax-based polish (Pledge or Endust, for example) and a dry cloth. Spray should be applied to cloth and not directly to furniture. Never use any type of abrasive cleaner or soap detergent on laminate surfaces.
