PRODUCT FINISHES

PRODUCT FINISHES

Choose from 3 popular finishes. Each finish costs the same, so you don't have to pay extra for your favorite!

ESPRESSO

Our darkest finish gives your closet a contemporary look

WHITE

A bright, clean look. Always a classic

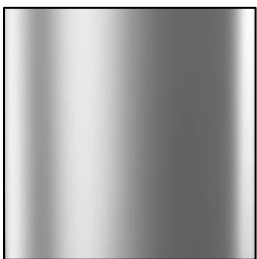

SALT OAK

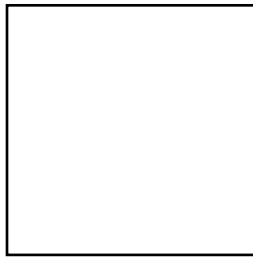

Gray tones and reclaimed wood look are on trend

HARDWARE FINISHES

Rods, shelf/rod brackets are only available in chrome. Shelf brackets available in Chrome, Black and White.

CHROME

WHITE Shelf Brackets only

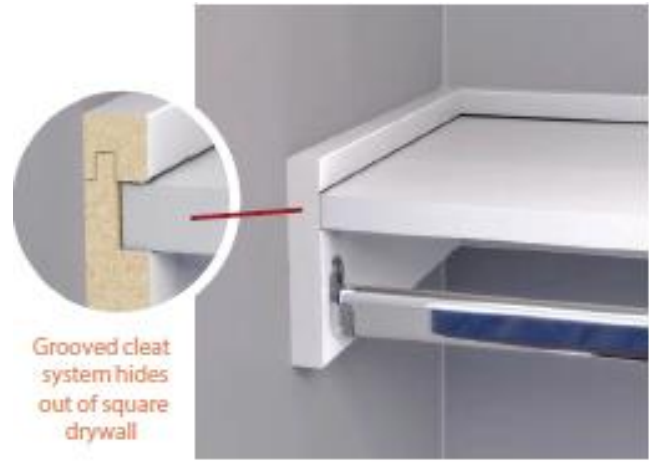

BLACK Shelf Brackets only

SYSTEM OVERVIEW

SolidTrac is a cut-to-size fixed shelf and rod closet shelving system.

-  High-end look with chrome rods and brackets
-  Available in multiple depths
-  Pre-finished engineered wood shelves
-  Cut-to-size means no surprises in the field
-  Grooved cleat system hides out of square drywall
-  Rated to hold 600 pounds per 8 foot section
-  Hanging design for installation before or after flooring

EXPAND WITH OPTIONS

Shelf Tower
(12" or 15½" depth)

Add Drawers
(12" or 15½" depth)

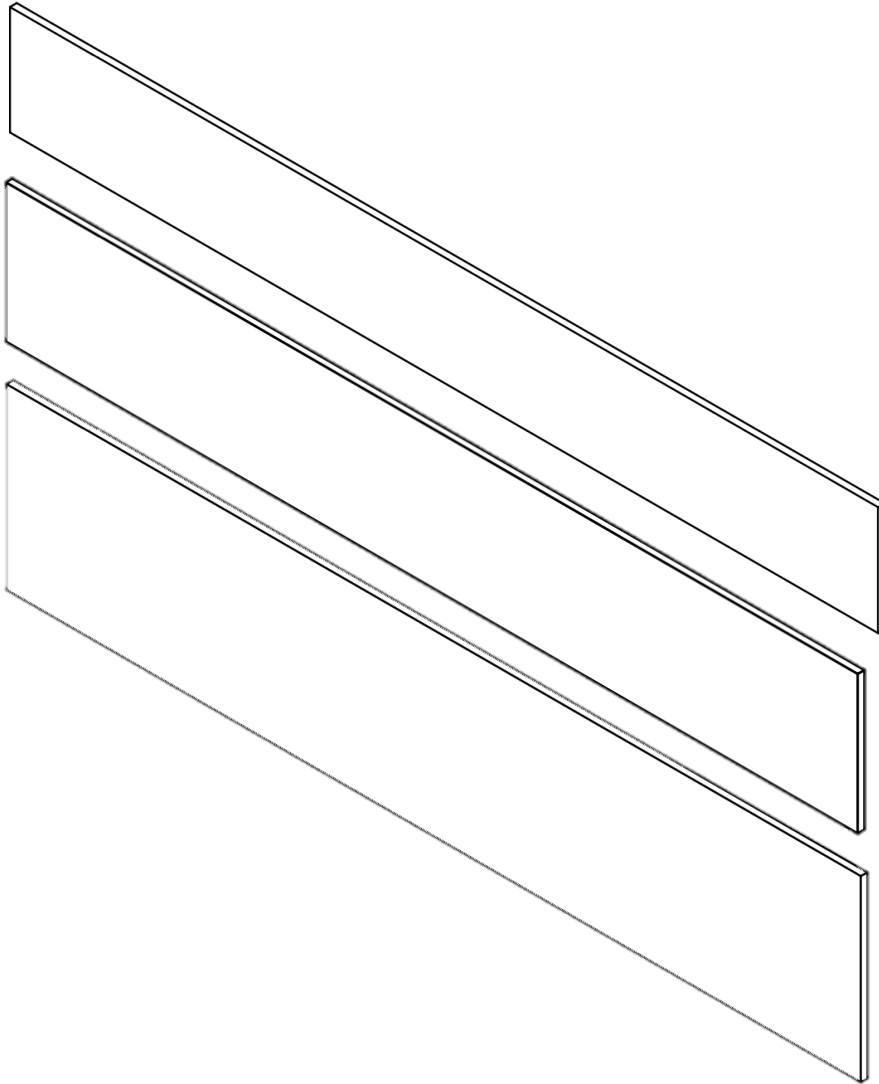

Corner Tower
(12" depth)

MULTIPLE DEPTHS

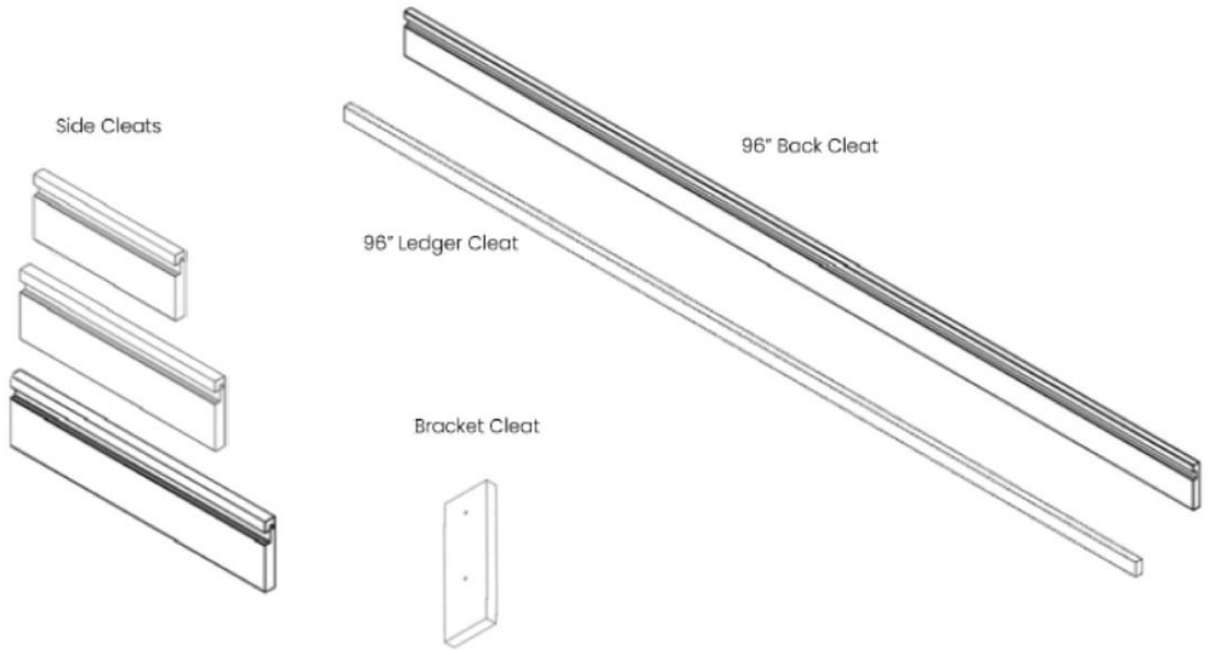

- 12" deep (most common)
- 15.5" deep
- 20" deep for use in pantries or linen closets
- All shelving and parts ¾" thick

INSTALLATION HEIGHT STANDARDS

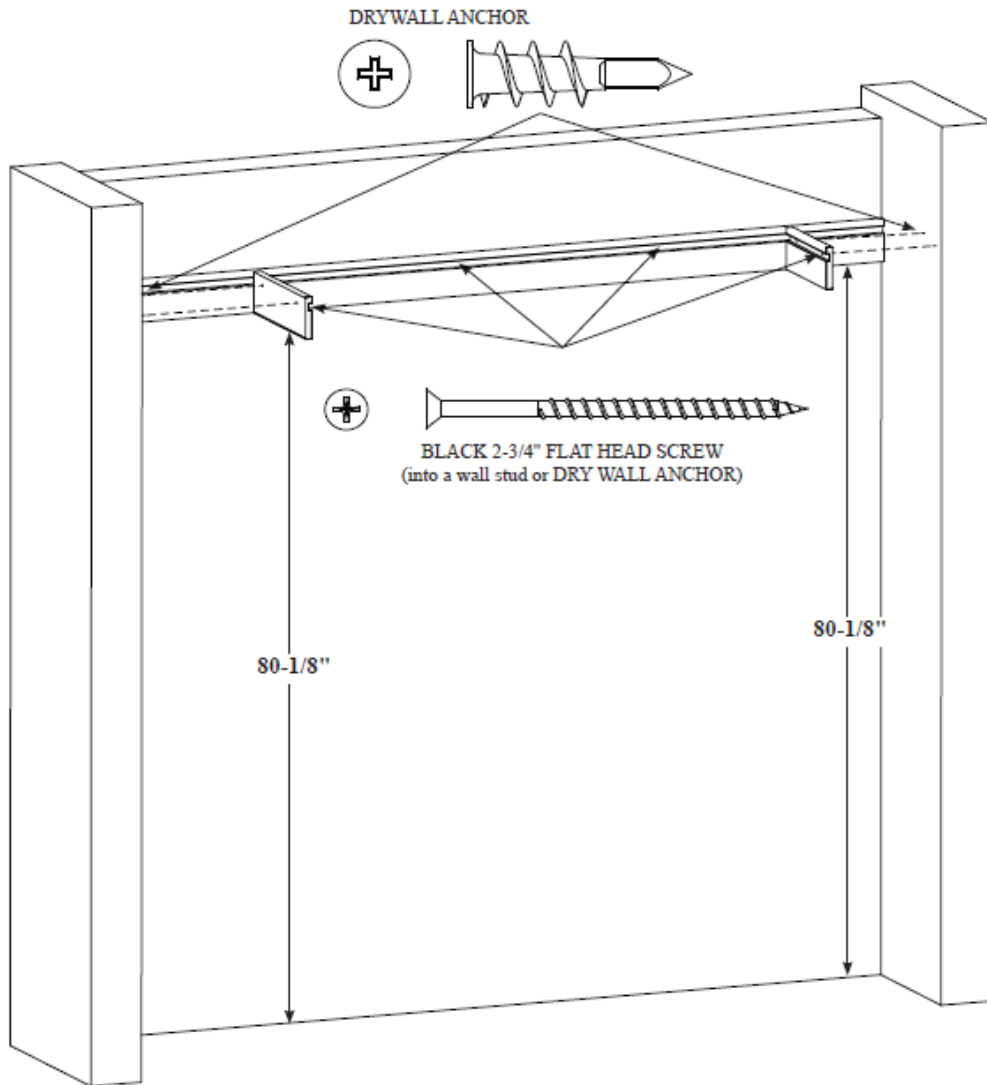

AFF- Above Finished Floor.

- Install bottom of cleats 3 7/8" below desired AFF height to have top of shelf line up with AFF
- Shelf must be supported by bracket or side cleat at most every 32"
- Shelves not ending on a side cleat must be supported by a bracket no more than 10" from the shelf edge.

INSTALLATION

Hanging Back and Side Cleats

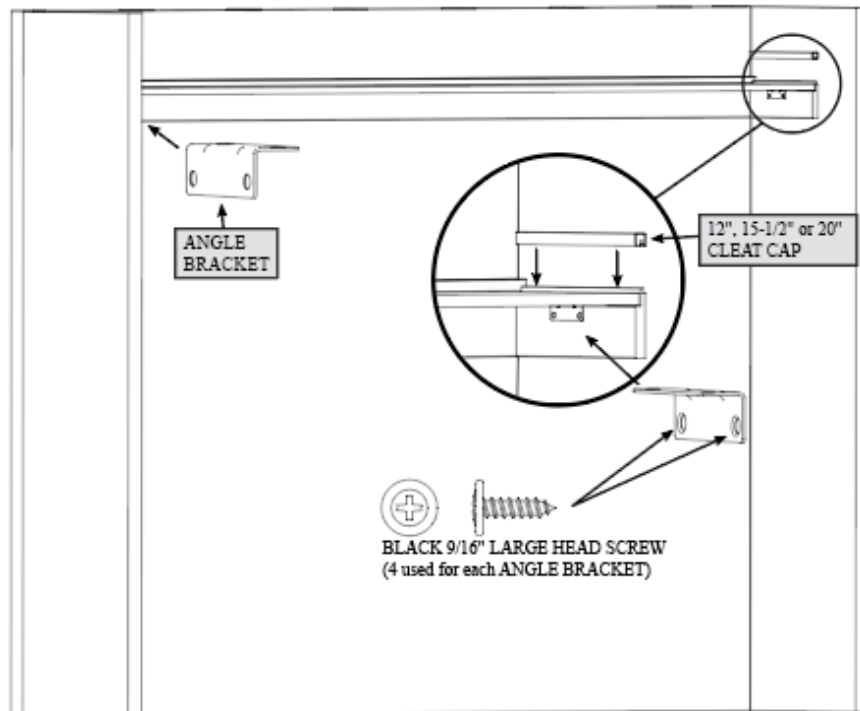

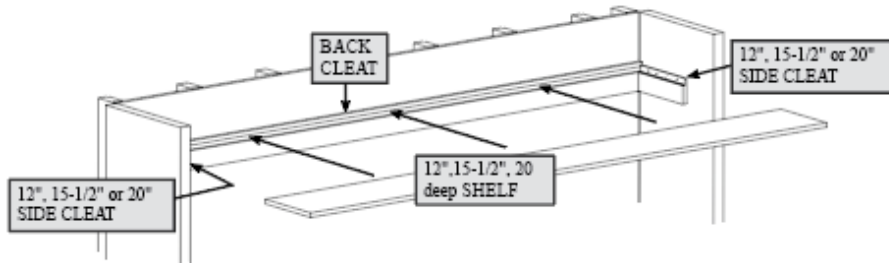

Cut to size a 96" BACK CLEAT and fasten it to the back wall 80-1/8" from the floor using a BLACK 2-3/4" FLAT HEAD SCREW through the groove of the BACK CLEAT and into all wall studs or a DRYWALL ANCHOR.

NOTE: Screws into wall studs must be 16" apart. If using DRYWALL ANCHORS only, they must be 12" apart.

Use DRYWALL ANCHORS and BLACK 2-3/4" FLAT HEAD SCREWS to fasten SIDE CLEATS to the wall.

INSTALLATION

Shelf Installation

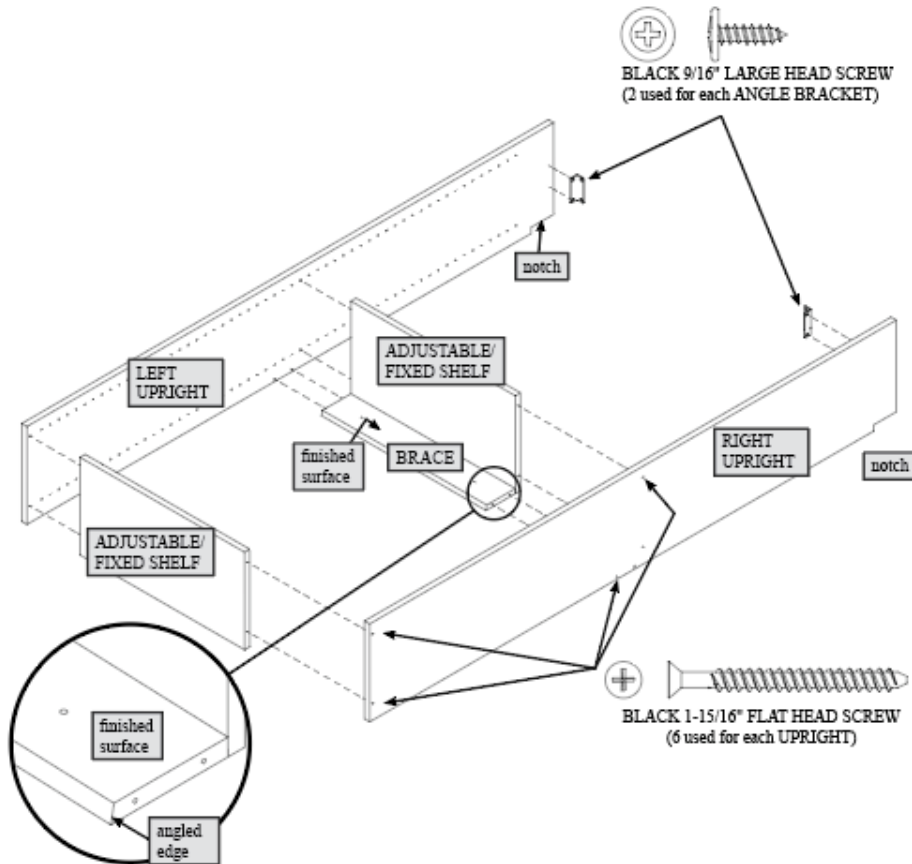

Cut to size a 96" SHELF and slide it into the grooves of the SIDE CLEATS and BACK CLEAT as shown in the upper diagram.

Fasten the SHELF to the SIDE CLEATS with two ANGLE BRACKETS and eight BLACK 9/16" LARGE HEAD SCREWS. It is recommended that you glue the CLEAT CAP to the SIDE CLEAT.

NOTE: If you are installing a closet rod, install ROD SUPPORT BRACKETS using the Rod Support Side Bracket Template, before installing ANGLE BRACKETS.

NOTE: If you purchased the Upright Pack, Adjustable Shelf/Brace Pack, L-Shape Corner Unit, and/or the 24" Large Drawer Kit, see those instruction booklets on how to install those components.

INSTALLATION- SHELF TOWER

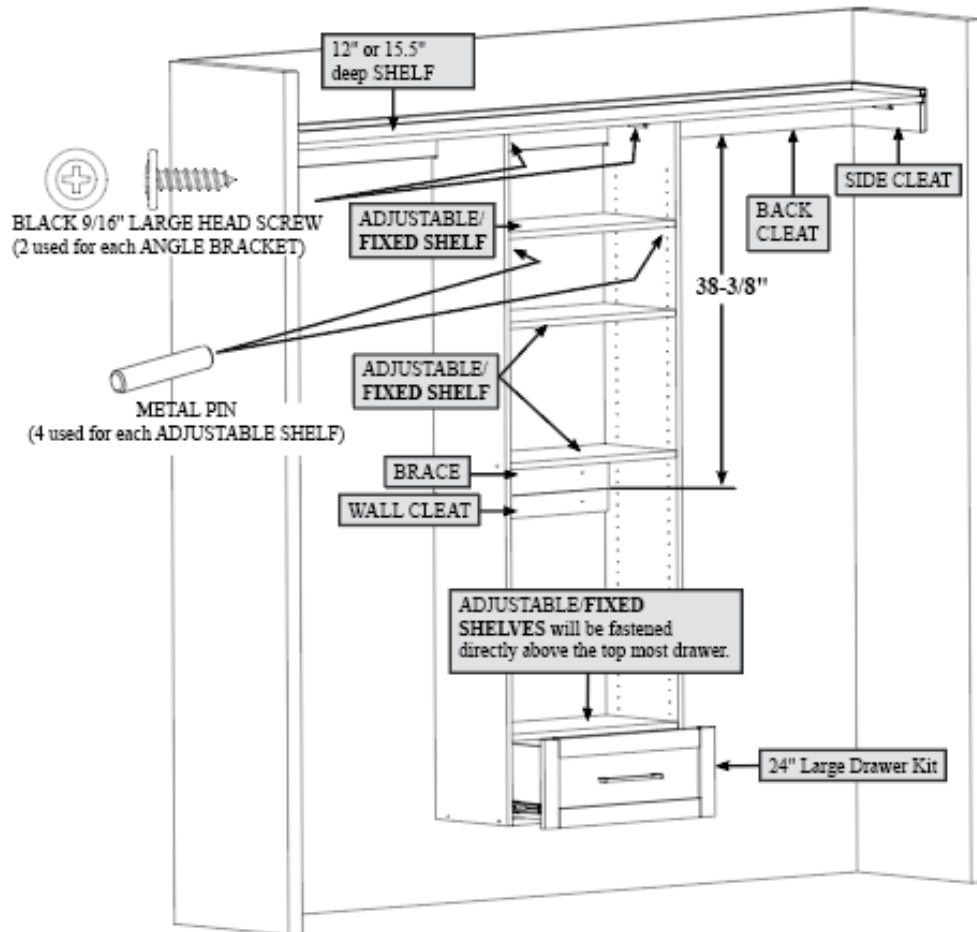

Before proceeding, see the CLEAT and SHELF Installation booklet to install the BACK and SIDE CLEATS. Then return to this book.

Fasten an ANGLE BRACKET to the center of each UPRIGHT. Use four BLACK 9/16\"

NOTE: There are no predrilled holes in the UPRIGHTS.

Fasten the UPRIGHTS to the ADJUSTABLE/FIXED SHELVES and BRACE. Use twelve BLACK 1-15/16\"

INSTALLATION- SHELF TOWER

Fasten the WALL CLEAT to the WALL with a BLACK 2-3/4" FLAT HEAD SCREW and a DRYWALL ANCHOR if necessary.
 NOTE: The top edge of the WALL CLEAT must be 38-3/8" from the bottom edge of the BACK CLEAT.

Hang your UPRIGHT unit onto the WALL CLEAT.

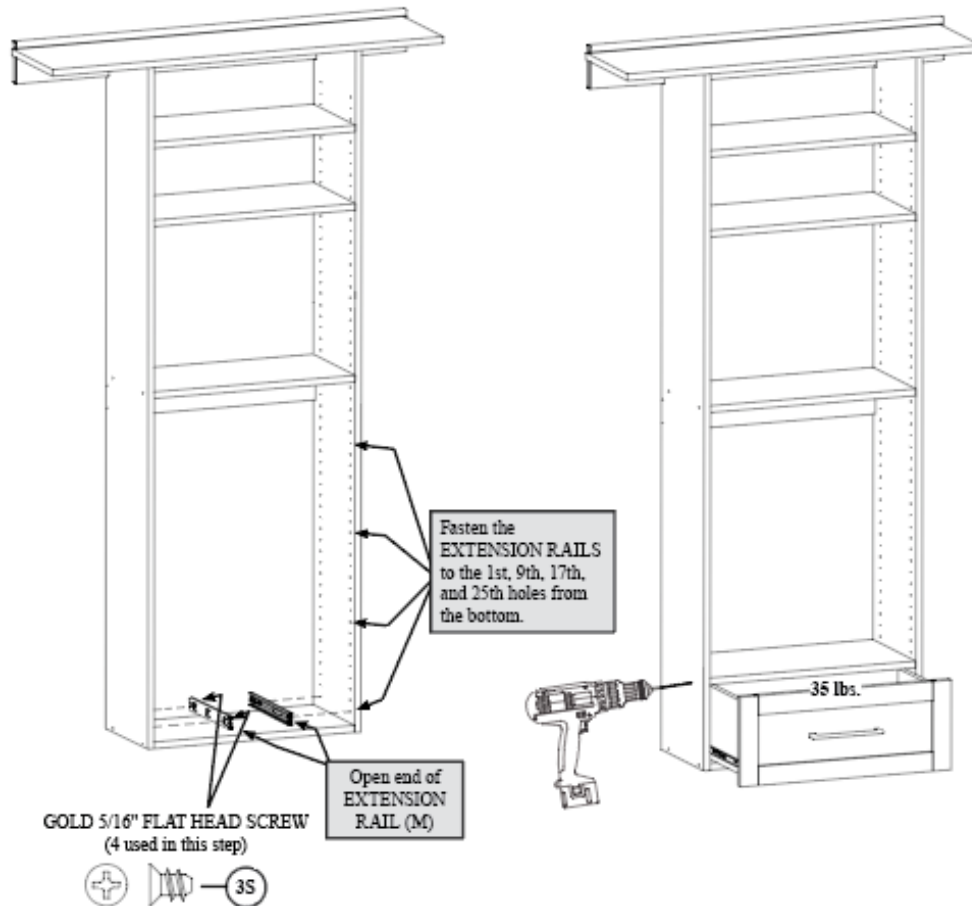

Fasten the BRACE to the WALL with a BLACK 2-3/4" FLAT HEAD SCREW and a DRYWALL ANCHOR if necessary.

Fasten the UPRIGHTS to the SHELF. Use four BLACK 9/16" LARGE HEAD SCREWS through the ANGLE BRACKETS and into the SHELF.

If you purchased the 24" Drawer Kit, assemble that now and then return to this booklet.

Insert METAL PINS into the hole locations of your choice in the UPRIGHTS. Set the additional ADJUSTABLE SHELVES/FIXED SHELVES onto the METAL PINS.

INSTALLATION- DRAWER

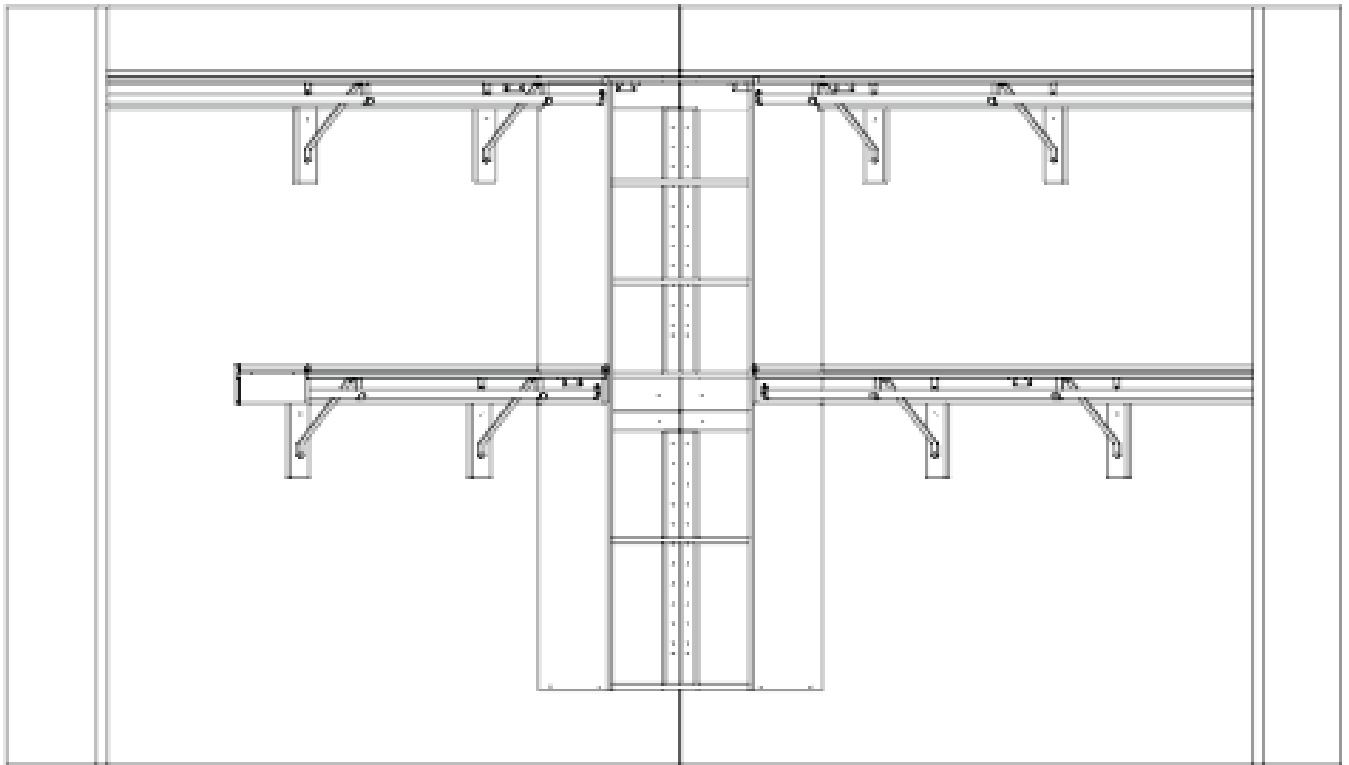

Fasten the EXTENSION RAILS (M) to the UPRIGHTS at the desired height. Use four GOLD 5/16" FLAT HEAD SCREWS (3S).

NOTE: For each EXTENSION RAIL, turn a SCREW into the rear holes. Then, slide the inner cartridge of the EXTENSION RAIL in to find the other hole that lines up with the hole in the END. Turn a SCREW into this hole.

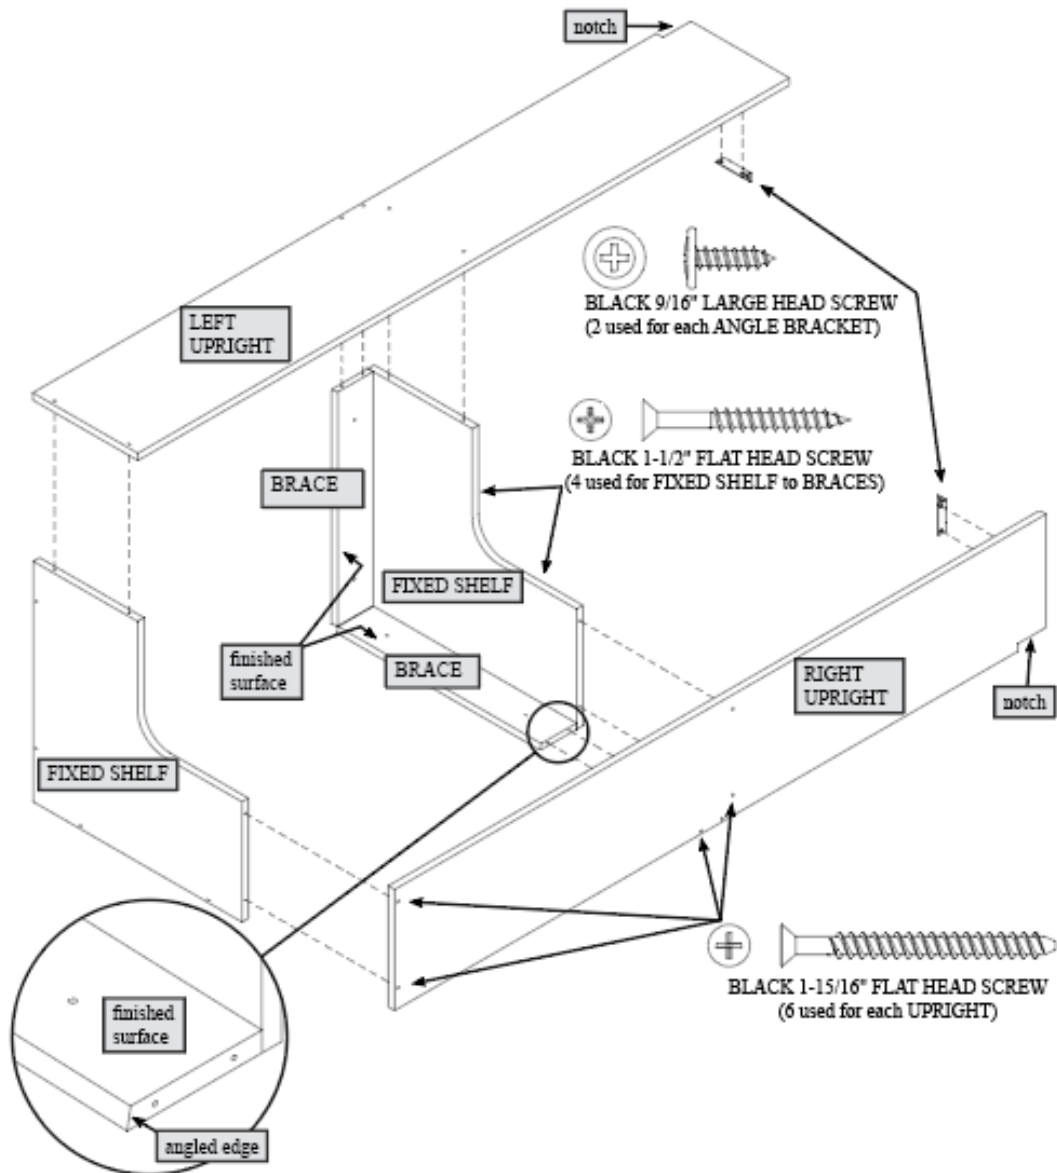

To insert the drawer into your unit, line up the EXTENSION SLIDES on the drawer with the EXTENSION RAILS on the unit and push the drawer into the unit until the drawer is fully inserted. The drawer will push in hard until it is all the way in, then it will slide in and out easier.

With a drill and 3/16" drill bit, finish drilling out holes needed to fasten an ADJUSTABLE/FIXED SHELF directly above the upper most drawer as shown. Fasten the ADJUSTABLE/FIXED SHELF to the UPRIGHTS. Use four BLACK 1-15/16" FLAT HEAD SCREWS.

INSTALLATION- CORNER UNIT

INSTALLATION- CORNER UNIT

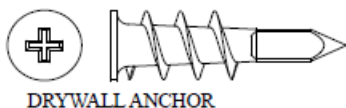

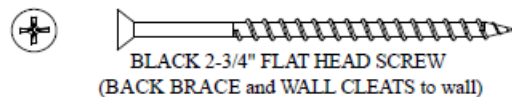

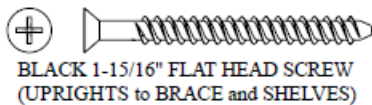

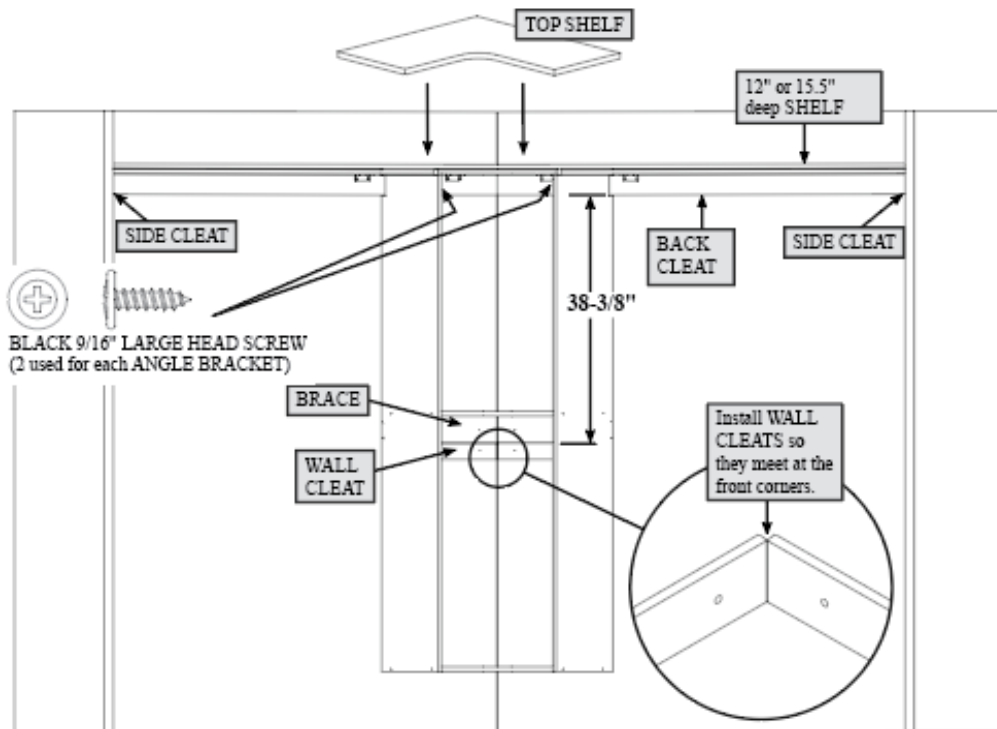

Fasten an ANGLE BRACKET to the center of each UPRIGHT. Use four BLACK 9/16" LARGE HEAD SCREW for the ANGLE BRACKETS.
 NOTE: There are no predrilled holes in the UPRIGHTS.

Fasten two BRACES to a FIXED SHELF. Use four BLACK 1-1/2" FLAT HEAD SCREWS.
 NOTE: There are no predrilled holes in the BRACES.

Fasten the UPRIGHTS to the FIXED SHELVES and BRACES. Use twelve BLACK 1-15/16" FLAT HEAD SCREWS.

INSTALLATION- CORNER UNIT

Fasten the WALL CLEAT to the WALL with a BLACK 2-3/4" FLAT HEAD SCREW and a DRYWALL ANCHOR if necessary.

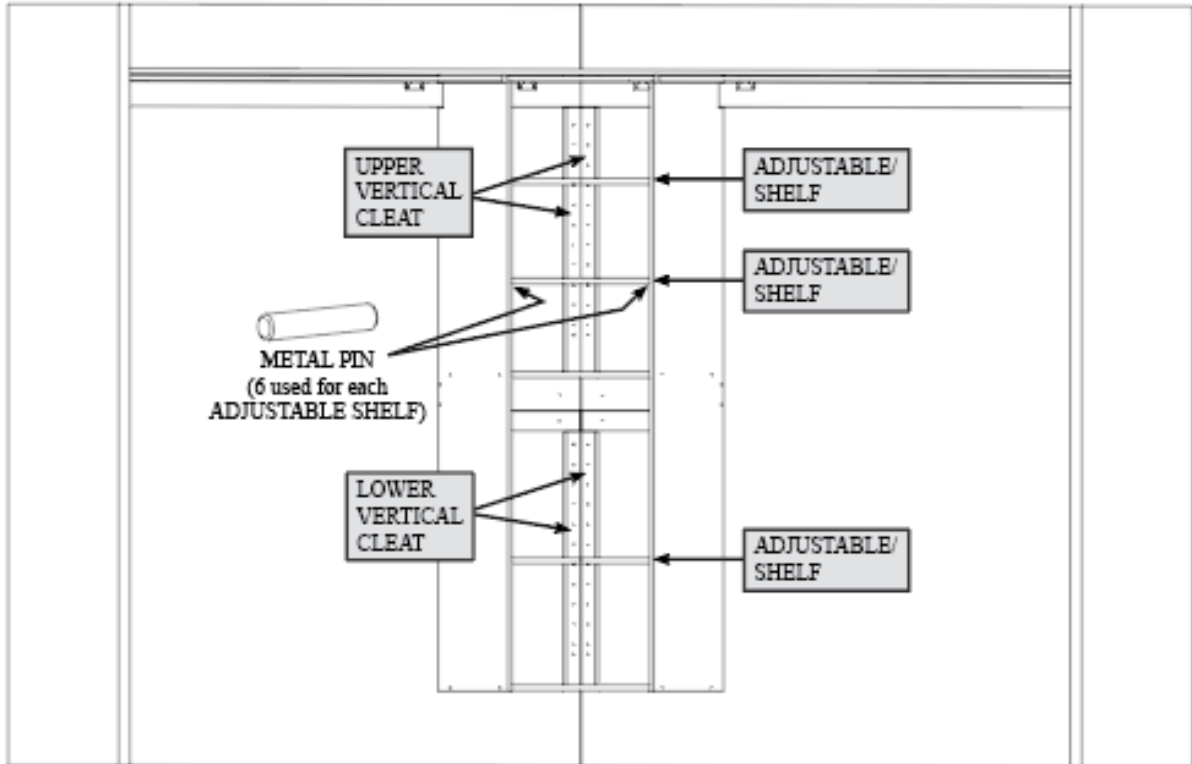

NOTE: The top edge of the WALL CLEAT must be 38-3/8" from the bottom edge of the BACK CLEAT.

Hang your CORNER unit onto the WALL CLEAT.

Fasten the BRACE to the WALL with a BLACK 2-3/4" FLAT HEAD SCREW and a DRYWALL ANCHOR if necessary.

Fasten the UPRIGHTS to the TOP SHELF. Use four BLACK 9/16" LARGE HEAD SCREWS through the ANGLE BRACKETS and into the TOP SHELF.

INSTALLATION- CORNER UNIT

Fasten the VERTICAL CLEATS to corner studs in your wall. Use the BLACK 2-3/4" FLAT HEAD SCREWS.

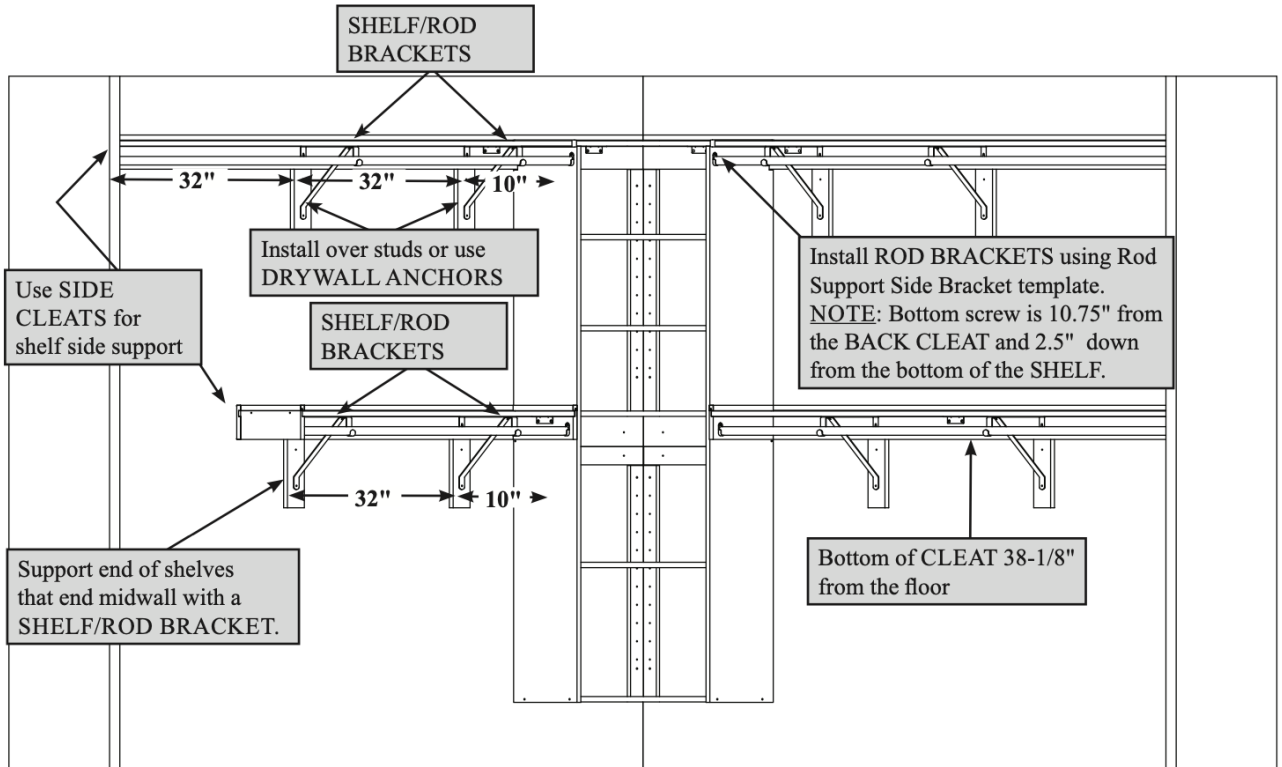

Insert METAL PINS into the hole locations of your choice in the UPRIGHTS and VERTICAL CLEATS. Set the ADJUSTABLE SHELVES onto the METAL PINS.

INSTALLATION

RECOMMENDED MAXIMUM LOAD:

Installation into wall studs offers a recommended maximum weight capacity of 625 lbs or 78.125 lbs per foot.

Installation into drywall anchors offers a recommended maximum weight capacity of 625 lbs or 78.125 lbs per foot.

Fasten SHELF/ROD BRACKET CLEATS over the wall studs using a BLACK 2-3/4" FLAT HEAD SCREW and a DRYWALL ANCHOR if necessary

NOTE: Position the ROD BRACKET CLEATS with the upper hole 1-7/16" from the top edge.

Fasten SHELF/ROD BRACKETS with the SILVER 3/4" FLAT HEAD SCREWS ensuring that the SHELF is level.

Fasten ROD BRACKETS on SIDE CLEATS, UPRIGHTS or BACK CLEATS using the SILVER 3/4" FLAT HEAD SCREWS.

Fasten CLOSET RODS securing them with SILVER 3/4" SELF DRILLING SCREWS through the SHELF/ROD BRACKETS.

Peel appliques from the APPLIQUE CARDS to cover screws and edges of SIDE CLEATS.

WARRANTY & WARNINGS

WOODTRAC® CLOSET PRODUCTS LIMITED WARRANTY

WoodTrac® by Sauder provides limited lifetime warranty coverage on WoodTrac® Closet Products (the "Products") to the original first use retail consumer ("Consumer") as set forth in this limited warranty statement. This limited warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Limited Lifetime Warranty Coverage: WoodTrac® warrants that the Products will be free from defects in material and workmanship under conditions of normal, residential use, for the lifetime of the Products. This limited warranty extends only to the original, first-use retail Consumer, and is not transferable.

Limitations on Warranty Coverage: WoodTrac's® Limited Lifetime Warranty (described above) is the only warranty coverage provided by WoodTrac® for the Products, and is in lieu of all other warranties. Under the laws of certain states, there may be no implied warranties from WoodTrac®, and ALL IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED AND EXCLUDED TO THE FULLEST EXTENT ALLOWED BY LAW.

Exclusions from Coverage: This limited warranty does not cover defects arising from (1) the improper installation or use of the Products; (2) abuse or neglect; (3) any commercial, rental or non-residential use of the Products (including the installation and use of the Products in a commercial or rental structure); or (4) normal wear and tear.

Exclusive Remedy: WoodTrac® will (at its option) repair or replace any defective Products (or components) at no charge, subject to confirmation of the defect and proof of purchase, as the sole and exclusive remedy under this limited warranty. This limited warranty does not cover costs for installation, returning any defective Products to WoodTrac®, for removal or other labor costs in connection with the repair or replacement of the Products, all of which shall be the responsibility of the Consumer. WoodTrac's® liability under this limited warranty shall not exceed the purchase price of the Products. WoodTrac® shall have NO LIABILITY FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, and all such claims and damages are DISCLAIMED AND EXCLUDED FROM THIS LIMITED WARRANTY. You must notify WoodTrac®, in writing, within 90 days after discovering any defect in order to receive limited warranty coverage.

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you.

To Obtain Warranty Service or Information: For warranty inquiries or claims, contact WoodTrac® at 1-855-854-7465, 502 Middle Street, Archbold, OH (USA) 43502, woodtrac@sauder.com. Return of any defective Product may be required by WoodTrac®, or we may elect to examine the product at its location. If we ask you to ship any Products to us, we will issue you a return authorization number and provide return instructions. For returned Products to qualify for limited warranty coverage, they must be returned in the original or equivalent packaging, in accordance with the shipping instructions you receive from us, and must prominently display the return authorization number on the return package.

WARNING

Please use your furniture correctly and safely. Improper use can cause safety hazards, or damage to your furniture or household items. *Carefully read the following chart.*

Look out for:	What can happen:	How to avoid the problem:
<ul style="list-style-type: none"> Loose or unstable closet components. Tall closet component structures. Closet component structures that are over five feet tall and placed in an open area or a walk-in closet. 	<ul style="list-style-type: none"> Risk of injury Closet components that are not properly connected can easily slide against each other and cause the structure to be unstable and tip over. A tall closet structure can tip unless it is properly secured. 	<ul style="list-style-type: none"> Closet components must be securely attached to each other from side to side, and top to bottom. Secure the closet structure to a wall stud whenever possible. If you cannot use a wall stud, use the supplied wall anchors into your drywall. <p>(If attaching the product to a wall made of concrete, plaster, or other material, purchase and use the appropriate mounting hardware. The attachment hardware must be rated to provide a minimum of 50 pounds of pull strength.)</p>
<ul style="list-style-type: none"> Overloaded drawers and shelves. 	<ul style="list-style-type: none"> Risk of injury. Top-heavy furniture can tip over. Overloaded drawers or shelves can break. 	<ul style="list-style-type: none"> Never exceed the weight limits shown in the instructions. Work from bottom to top when loading shelves and drawers. Place the heavier items on the lower shelves or in lower drawers.
<ul style="list-style-type: none"> Improper use of furniture to support TVs. Setting TVs on furniture items not intended to support them is hazardous. 	<ul style="list-style-type: none"> Risk of injury. TVs can be very heavy. Plus the weight and location of the picture tube tends to make TVs unbalanced and prone to tipping forward. 	<ul style="list-style-type: none"> This product is not designed to support a television.

PRODUCT PERFORMANCE

LOAD SPECIFICATIONS

Product	Anchoring Method	Recommended Load Limits
SolidTrac	Wooden studs	78 lbs per foot (32" Span between brackets)
SolidTrac	Drywall Anchors	78 lbs per foot (32" Span between brackets)

SURFACE PERFORMANCE

WoodTrac Closets wood components are made with silicone coated high definition micropapers laminated over either MDF or Particleboard depending on the part. Performance results below.

Standard Plus/ Wrapping Plus Grade Paper-Engineering Specification

SSN – 1220 r.1

AESTHETICS		
Attribute	Test Method	Specification/Assessment
Color (Evaluated using the D65 Lighting)	Visual Compliance to the Color Standard – ASTM D-1729-96	Pass / Fail
Coating Smoothness	Visual Compliance to the Color Standard	Pass / Fail
Gloss	Gardner Micro Gloss - @ 60° (MD) – ASTM D-523-99	±15% of standard
Fidelity/Registration	Visual Compliance to the Color Standard	Pass / Fail
PERFORMANCE		
Attribute	Test Method	Specification/Assessment
Wear Resistance	For paper, correlated to coating weight	=> 3 grams/m ²
	For laminates, CPA WR-01-2009	>250 cycles
Scratch Resistance	For paper, correlated to coating weight	=> 3 grams/m ²
	For laminates, Hoffman-Paint & Coating Testing Methods p.557 ASTM - D 5178 (Breaking Point)	=> 100 grams
MEK Resistance	ASTM - D 4752	=> 50 Dble Rubs
Boiling Water Resistance	Fed. Spec. AA-11-001895B	No Effect after 1 hour
Color Stability at Elevated Temperature	For paper, Sauder LP074; Color Stability Standard Method	Delta <.5 or Visual Compliance to Color Standard
Water Resistance	ANSI / NEMA LD 3-2005 - High Pressure Decorative Laminates Section 3.4 Distilled Water	No Effect after 4 hours
Stain Resistance	ANSI / NEMA LD 3-2005 - High Pressure Decorative Laminates Section 3.4; cooking oil, coffee, tea, mustard, catsup	No Effect after 4 hours
Tape Resistance	ASTM – D 3330 or correlated method	100% Tape Adhesion Failure (Based on 10day tape pull)
Coating / Ink Adhesion	ASTM – D 3359	0% Failure
Coefficient of Friction	ASTM – D 1894	.125 Kinetic (min)

PRODUCT COMPOSITION & CARE

PRODUCT COMPOSITION

Our SolidTrac wood parts are a combination of 3/4" furniture-grade particleboard and MDF (Medium Density Fiberboard) with a high-definition micro paper laminate. The high heat and pressure used in manufacturing result in a very strong, environmentally-friendly product.

Our product is made of over 80% recycled products. All wood panels used at our production facility are "Environmentally Preferred Product" (EPP) by the Composite Panel Association.

PRODUCT CARE

While laminate products are durable, like any wood product they are not water resistant. We recommend quickly wiping any spilled liquid to prevent damage.

To clean we recommend light dusting or wiping the surface with a wax-based polish (Pledge or Endust, for example) and a dry cloth. Spray should be applied to cloth and not directly to furniture. Never use any type of abrasive cleaner or soap detergent on laminate surfaces.
